4

Introduction to Future State

5

Future Proposal

Document Overview

Huron has created this draft document in response to a request from the Chair of the Student Success/Academic Programs/Campus Identity committee of the Task Force.

Student Success/Academic Programs/Campus Identity hearing on August 28, 2018:

Following a presentation by Huron that framed how to start thinking about connecting different academic and curricular assets to student and community needs, Chair Griffin requested that Huron return to the Student Success committee with preliminary recommendations during the next meeting on September 19, 2018. He also requested that Huron conduct benchmarking among SUS and AAU institutions assessing the organization, structure, and scale of academic units. Chair Griffin noted the importance of having the time to collect community input and demand data to support the recommendations.

Purpose of document

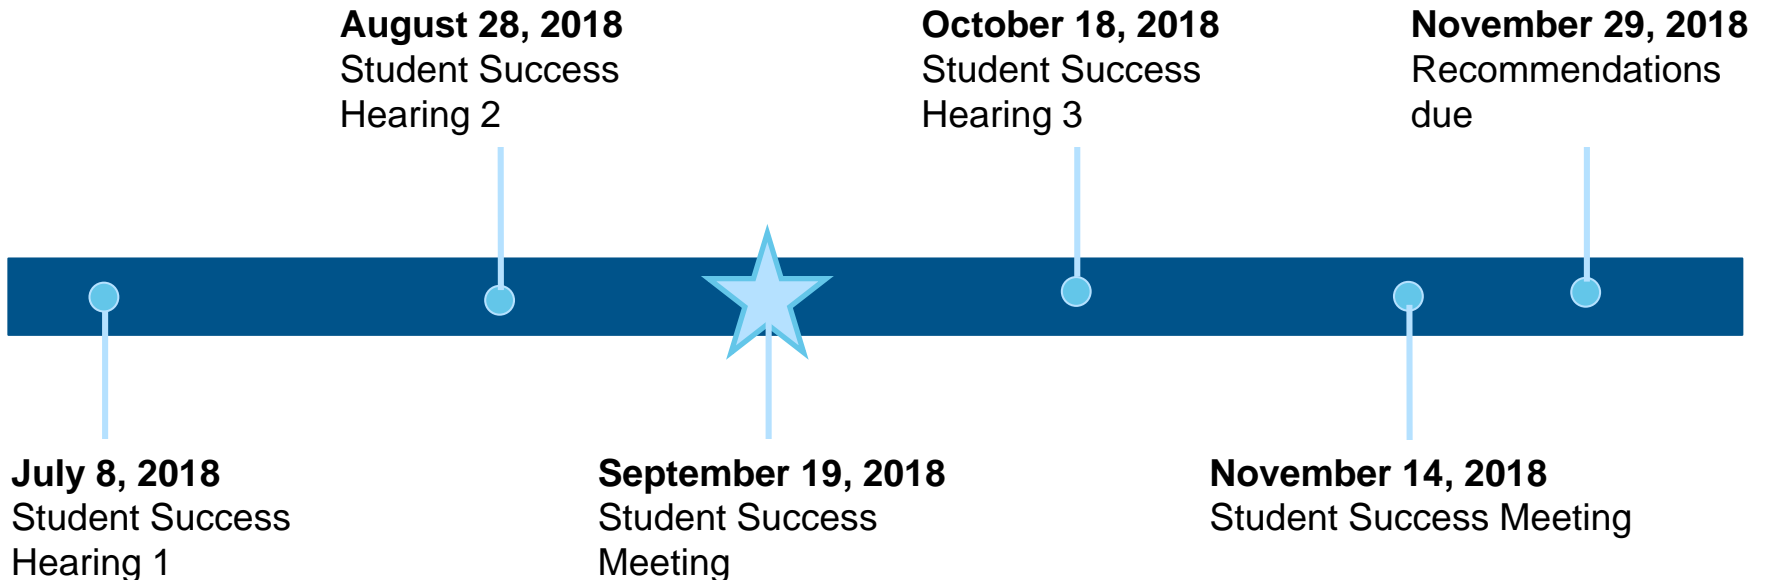

- This document is a preliminary proposal for **discussion purposes only**. It represents a framework for moving forward and will continue to be refined
- The proposed academic structures outlined in this document are supported by various quantitative and qualitative inputs, from internal and external sources
- Discussions with Deans, faculty, and students at USF St. Petersburg, USF Sarasota-Manatee, and USF Tampa are ongoing
- At this time, no definitive decisions have been reached
- Huron looks forward to hearing feedback from the USF community on this preliminary proposal

1

OVERVIEW & APPROACH

Subcommittee Timeline

The Student Success/Academic Programs/Campus Identity subcommittee has held two public hearings, on the USF St. Petersburg and USF Tampa campuses.

At the subcommittee's second hearing on August 28, 2018, Chair Griffin asked the team from Huron supporting the Task Force's effort if we could prepare and present a preliminary draft proposal for the post-consolidation academic program structure.

Subcommittee Charge

Chair Griffin's request is in support of the Student Success/Academic Programs/Campus Identity committee's focus areas.

Committee Focus Areas

- a. Identification of specific degrees in programs of strategic significance, including health care, science, technology, engineering, mathematics, and other program priorities to be offered at the University of South Florida St. Petersburg and the University of South Florida Sarasota/Manatee and the timeline for the development and delivery of programs on each campus;
- b. Maintaining the unique identity of each campus;
- c. Developing the research capacity at each campus; and
- d. Other subject matters pertaining to campus strengths as determined by the Chair of the Task Force that would support the work of the Task Force.

Academic Structure Mapping Guidelines

The following set of guidelines has helped inform our draft recommendations on USF's academic structure and organization.

1. Florida Excellence in Higher Education Act of 2018
2. USF BOT's approved Guiding Principles for USF Consolidation (2018)
3. Regional and programmatic accreditation – “one college only” (SACSCOC guidance, 2018)
4. Strengthening USF's position as a Preeminent State Research University and advancing toward AAU membership eligibility through developing the research capacity of each campus
5. Providing students access to, and success in, a broader array of integrated degree programs by discipline, level, mode of delivery, and location (*hosted*)
6. Meeting the local workforce needs of the communities we serve
7. Maintaining the unique identity and establishing distinctive anchor (*home*) programs on each of USF's campuses
8. Aligning colleges by academic discipline across one university
9. Establishing realistic and manageable-sized college units
10. Eliminating the need for duplication of expensive infrastructure

The intention is to increase student access to programs, align programs with campuses in a strategic fashion, and increase efficiencies across the university. To inform decision-making at USF, we have looked at comparable public institutions from among the SUS, the AAU membership and other systems whose consolidations Huron has supported.

Guiding Principles for USF Consolidation

The USF Board of Trustees' guiding principles for USF consolidation shaped our draft recommendations for academic structure.

- Strengthen USF's stature as a Preeminent Research University with national and global prominence;
- Embrace a model of "One University Geographically Distributed" while preserving campus identity – guided by a transparent and collaborative process;
- Commit to "Students First", through expanding access and raising educational attainment while continuing USF's national best practice of student success and diversity;
- Establish a clear, simple and unified leadership structure by aligning accountability with authority and valuing shared governance through engaging students, faculty and staff on all campuses;
- Assure consistency of high impact research across the university through establishing centers and programs of academic excellence on each campus;
- Enhance regional economic development while avoiding unwarranted duplication of academic programs, and
- Maximize performance, service quality and operational efficiencies through optimizing the utilization of faculty talent and technology across the University.

Relevant SACSCOC Requirements

The requirements of the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) are an important driver of the future state of academic structures.

- The consolidation prospectus should clearly describe:
 - The organizational structure of the new USF institution
 - The lines of communication from the campuses to the BOT and President
 - The lines of responsibility and authority
- There can only be one College of the same field of study (e.g. Business, Education, Engineering)
- Programs must roll up to a single College with a clear administrative structure and reporting lines
- Curricula for the same degree (e.g. BS in Accounting) must be the same regardless of campus location
- Cannot have different programs of study for the same major (e.g. BS in Accounting) on each campus

Key Terms

There are four key terms that are integral to our discussion of academic programs.

College & School

- **College:** A College has an Executive Dean or a Dean, faculty, academic programs, and an academic *home* location. There can only be one College per field of study, per the SACSCOC guidance. A College may have multiple Schools and Departments, in the same or different locations, that report into a singular academic structure.
- **School:** A School has a Dean or a Director, faculty, academic programs, and an academic *home* location. The School's programs and administrative structure roll up to a single College, led by an Executive Dean or a Dean, as required by the SACSCOC principles and standards.

Home & Host

- **Home:** A *home* is the campus location of the principal academic structures and functions of a College, School, Department or program/discipline. However, it is not required that all related resources, facilities, or personnel be physically located in the *home* location.
- **Host:** A *host* location provides access to programs and courses from a *home* location for students in the *host* location, whether the instruction is delivered via in-person, online, or hybrid model. *Hosted* programs and courses on campuses expand student access to an array of programs that otherwise would not be available to them. Programs and courses to be delivered through *host* campuses will be dependent on student need, availability of resources (faculty, space, instrumentation, financial aid etc.), and approval by the Board of Governors.

Advantages of one USF

There are a number of advantages of the proposed future state of the academic program structure.

Providing USF students access to, and success in, a broader array of degree programs

Greater number of *hosted* programs at each USF campus

Addressing projected local workforce needs

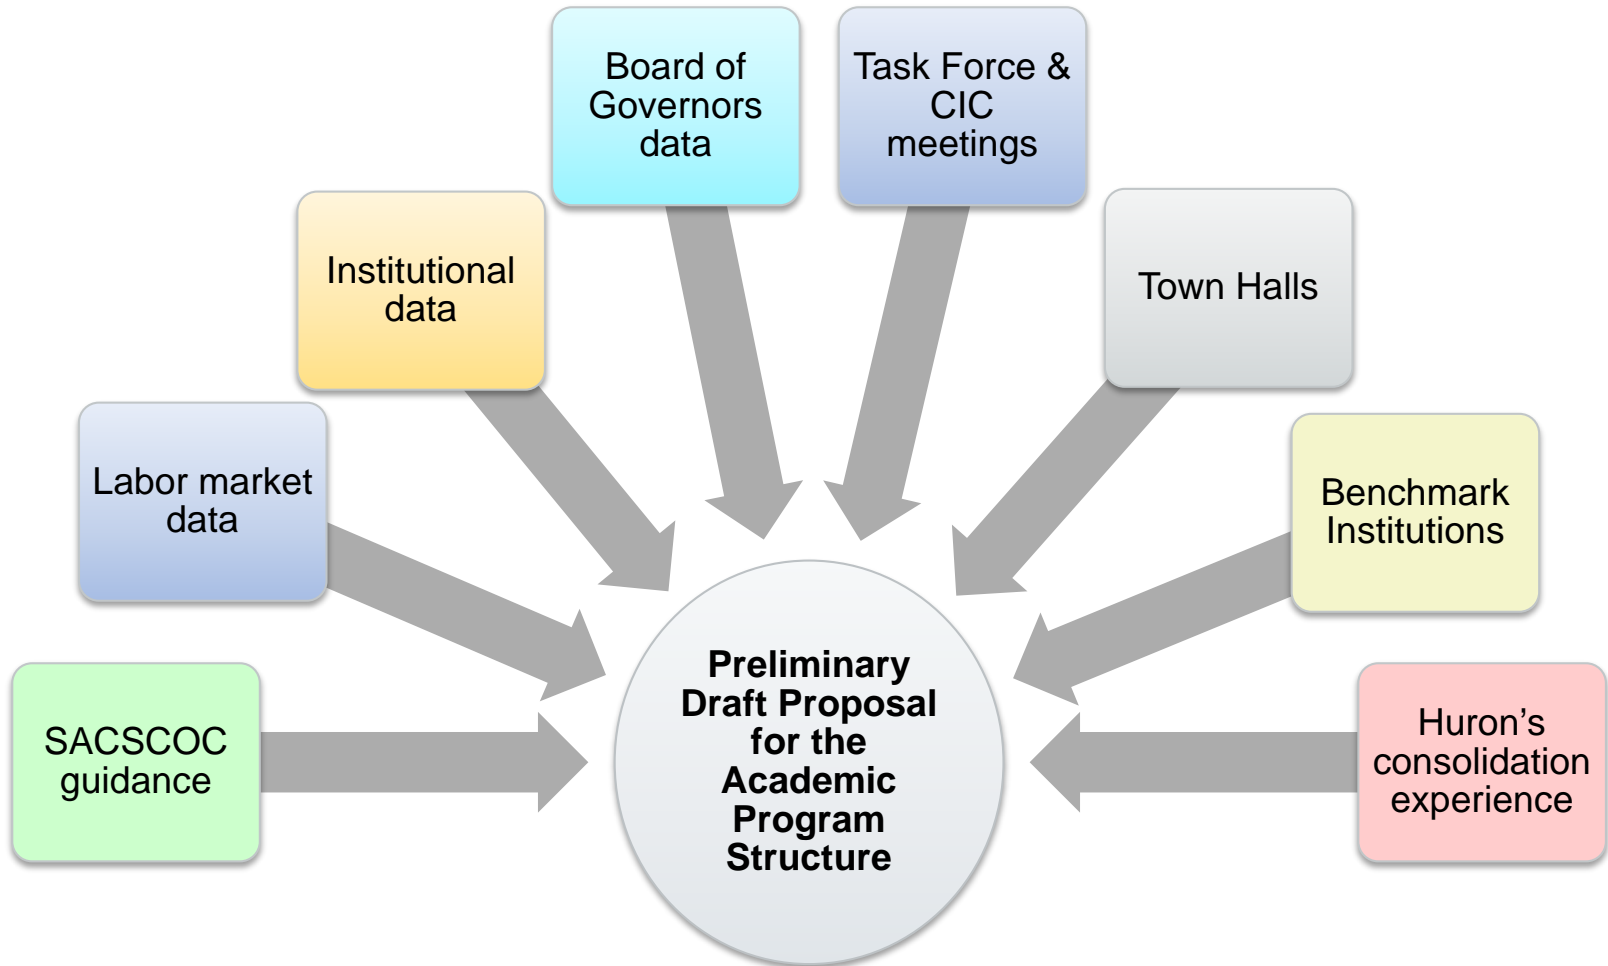

Maintaining the unique identity of each campus by establishing distinctive *home* programs

Analytical Inputs

Various quantitative and qualitative inputs, from internal and external sources, have and will continue to inform our academic structure proposal.

Projected Labor Market Needs

Labor market experts spoke at the Task Force public hearing on August 28, 2018 about projected workforce needs which could have bearing on home and hosted USF programs post-consolidation.

Market	Projected local workforce needs include
St. Petersburg	<ul style="list-style-type: none"> • Marine science • Engineering • Health care • Arts • Entrepreneurship
Sarasota-Manatee	<ul style="list-style-type: none"> • Health care • Insurance • Hospitality • Technology and cyber security
Tampa	<ul style="list-style-type: none"> • Health care • Professional services • Finance • Real estate

Guideline 6: Meeting the local workforce needs of the communities we serve.

Institutional Data

Huron has reviewed various institutional reports provided by the Office of Decision Support (ODS) at the University of South Florida.

Reports including:

- Enrollment trends
- Accountability reports
- Board of Governors’ program performance data
- Student and faculty headcount data

Sample Report: USF System Degree Inventory

CIP	CIP Title	USFSP		USFSM		USFT

USF Tampa	World Languages & Cultures	BA	World Languages & Cultures

Report detail included in Appendices A and B.

Stakeholder Forums

Several themes have emerged from internal and external stakeholder forums.

Structure

- Uncertainty regarding the future state of academic structures has resulted in some premature assumptions and fear among faculty and administrators
- Perceived inequities in historical structures and models have generated anxiety
- Concern regarding impact of academic structures on reporting lines, tenure & promotion guidelines, and other related matters

Policy

- Concern among USF faculty about the impact of potential academic structures (e.g. schools, departments) on policies, in particular around tenure & promotion

Resources

- Concern regarding equity of faculty resources at St. Petersburg, Sarasota-Manatee, and Tampa, in particular with regard to research infrastructure
- Desire among faculty for equitable distribution of resources

Benchmark Institutions

We conducted benchmarking within the State University System of Florida (SUS) and among public, AAU institutions.

State University System of Florida

- | | |
|--|---|
| <ul style="list-style-type: none"> • Florida A&M University • Florida Atlantic University • Florida Gulf Coast University • Florida International University • Florida Polytechnic University • Florida State University | <ul style="list-style-type: none"> • New College of Florida • University of Central Florida • University of Florida • University of North Florida • <i>University of South Florida</i> • University of West Florida |
|--|---|

Public, AAU institutions

- | | |
|--|---|
| <ul style="list-style-type: none"> • Georgia Tech • Indiana University • Michigan State University • University of Maryland • Purdue University • Rutgers University • The Ohio State University • The State University of New York, Stony Brook | <ul style="list-style-type: none"> • The State University of New York, Buffalo • University of Colorado Boulder • University of Illinois • University of Iowa • University of Pittsburgh • University of Texas at Austin • University of Washington • University of Wisconsin Madison |
|--|---|

We recognize that there are significant institutional nuances and that there will not be any perfect comparators. Nevertheless, peer comparisons can offer useful insights.

System Consolidation Experience

Huron has supported a number of consolidation efforts at colleges and universities across the nation.

2

USF CURRENT STATE

Current State Overview

There are key differences in the student body, infrastructure, and resources between the three USF institutions.

	USF St. Petersburg	USF Sarasota-Manatee	USF Tampa
Total enrollment*	4,908	2,127	43,542
Instructional faculty headcount	139	82	1,806
Total square feet	1,341,543	167,846	10,043,481

*Total enrollment figures include non-degree seeking students

4

INTRODUCTION TO FUTURE STATE

Question for Consideration

The following set of guidelines has helped inform our draft recommendations on USF's academic structure and organization.

1. Florida Excellence in Higher Education Act of 2018
2. USF BOT's approved Guiding Principles for USF Consolidation (2018)
3. Regional and programmatic accreditation – “one college only” (SACSCOC guidance, 2018)
4. Strengthening USF's position as a Preeminent State Research University and advancing toward AAU membership eligibility through developing the research capacity of each campus
5. Providing students access to, and success in, a broader array of integrated degree programs by discipline, level, mode of delivery, and location (*hosted*)
6. Meeting the local workforce needs of the communities we serve
7. Maintaining the unique identity and establishing distinctive anchor (*home*) programs on each of USF's campuses
8. Aligning colleges by academic discipline across one university
9. Establishing realistic and manageable-sized college units
10. Eliminating the need for duplication of expensive infrastructure

How well does the proposed structure align to the Mapping Guidelines?

Intended Outcomes

In reimagining the academic programs, we are striving for positive, high-impact outcomes.

Increased student access to, and success in, a wider array of program offerings

- In the current state, USF St. Petersburg offers 24 bachelor's and 14 master's degrees, USF Sarasota-Manatee offers 17 bachelor's and 7 master's degrees, and USF Tampa offers 72 bachelor's and 99 master's degrees.
- A reimagined academic structure has the potential to significantly increase the number of programs by discipline, level, mode of delivery, and location.

Alignment of programs of strategic significance with a home campus

- Each campus has areas of unique strength in academic programming and a new structure offers the potential to expand upon these existing areas.
- A new academic structure also allows for creation of new programs in areas of strategic significance to complement existing programs and to meet local workforce needs.

Reduction of redundancies in program offerings and other organizational features

- In the current state, there are 24 duplicated bachelor's degree programs and 11 duplicated master's degree programs offered on the three USF campuses, according to the Office of Decision Support.
- In a reimagined structure, these degree programs would be aligned to a *home* location and *hosted* for students on the other two campuses. This would broaden access and reduce the need for duplication of expensive infrastructure.

USF St. Petersburg

A reimagined academic structure will provide students at USF St. Petersburg with access to a greater array of degree programs.

Academic degree programs approved by BOG in the current state

Bachelor's	24	Master's	14
Research Doctorate	0	Professional Doctorate	0

Potential opportunities in the future state

Areas of unique strength for potential expansion	<ul style="list-style-type: none"> • Environmental science • Graphic design and the Arts • Marine science • Business and accounting
Potential opportunities to broaden student access	<ul style="list-style-type: none"> • Engineering • Foreign languages • Hospitality administration • Information technology • Nursing and health services • Public health • Social sciences

USF Sarasota-Manatee

A reimagined academic structure presents various opportunities for students at USF Sarasota-Manatee.

Academic degree programs approved by BOG in the current state

Bachelor's	17	Master's	7
Research Doctorate	0	Professional Doctorate	0

Potential opportunities in the future state

Areas of unique strength for potential expansion	<ul style="list-style-type: none">• Aeronautical engineering• Aviation management• Hospitality administration• Risk management
Potential opportunities to broaden student access	<ul style="list-style-type: none">• Art and design• Behavioral sciences• Environmental sciences• Foreign languages• Mechanical and industrial engineering• Nursing and health services• Social sciences

USF Tampa

A reimagined academic structure allows USF Tampa to build upon existing strengths and to expand access for students to other fields of study.

Academic degree programs approved by BOG in the current state

Bachelor's	72	Master's	99
Research Doctorate	45	Professional Doctorate	4

Potential opportunities in the future state

Areas of unique strength for potential expansion	<ul style="list-style-type: none">• Behavioral sciences• Medicine• Nursing and health services• Public health• Social sciences
Potential opportunities to broaden student access	<ul style="list-style-type: none">• Aeronautical engineering• Aviation management• Marine science• Graphic design• Hospitality administration• Journalism

Advantages for USF students

The consolidation offers the opportunity to significantly increase student access.

USF St. Petersburg	Bachelor's	Master's	Research Doctorate	Professional Doctorate
Current State	24	14	0	0

USF Sarasota-Manatee	Bachelor's	Master's	Research Doctorate	Professional Doctorate
Current State	17	7	0	0

USF Tampa	Bachelor's	Master's	Research Doctorate	Professional Doctorate
Current State	72	99	44	4

Guideline 5: Providing students access to, and success in, a broader array of integrated degree programs by discipline, level, mode of delivery, and location (hosted).

Example: Arts student at USFSP

A student interested in studying the Arts at USF St. Petersburg would have access to an increased portfolio of classes in the future state.

Pre-consolidation programs at USFSP	Post-consolidation programs at USFSP
<ul style="list-style-type: none">• An Arts student can take classes offered at USF St. Petersburg including:<ul style="list-style-type: none">• Graphic Design	<ul style="list-style-type: none">• An Arts student could take advantage of classes offered in St. Petersburg including:<ul style="list-style-type: none">• Architecture• City and Urban Planning• Environmental Design• Dance• Visual and Performing Arts• Drama & Theater Arts• Music Teacher Education• Music Performance

Example: Business student at USFSM

A student interested in studying Business at USF Sarasota-Manatee would have greater opportunities in the future state.

Pre-consolidation programs at USFSM

- A Business student can take classes offered at USF Sarasota-Manatee including:
 - Business administration
 - Accounting
 - Finance

Post-consolidation programs at USFSM

- A Business student could take advantage of classes offered at USF Sarasota-Manatee including:
 - Real Estate
 - International business
 - Sport and fitness management
 - Entrepreneurial studies
 - Managerial economics

Example: Liberal arts student at USF Tampa

A student interested in studying liberal arts at USF Tampa would benefit from unique programs offered in the future state.

Pre-consolidation programs at USF Tampa

- A liberal arts student can take classes offered at USF Tampa including:
 - Anthropology
 - English
 - Economics
 - History
 - Philosophy
 - Sociology

Post-consolidation programs at USF Tampa

- A liberal arts student could take advantage of classes offered at USF Tampa including:
 - Journalism
 - Liberal Arts (i.e. Florida Studies)

Overview of program-level recommendations

On the following slides, Huron has outlined preliminary recommendations for six colleges in the future state, including potential home and hosted schools, departments, and programs.

- The academic structures on pages 55-62 are preliminary and for **discussion purposes only**
- Discussions with Deans, faculty, and students at USF St. Petersburg, USF Sarasota-Manatee, and USF Tampa are ongoing
- The Academic Deans across the system are in various stages of meeting to align on potential academic structures. As those meetings are taking place, Huron has been receiving feedback and proposals from those meetings and that has been reflected in the recommendations posed today. We are looking forward to continuing to receive feedback from future meetings to be held through December 2018. This proposal reflects those conversations to date
- Due to the ongoing conversations, this preliminary proposal does not include program-level structures for the following academic disciplines: College of Art & Design, College of Behavioral & Community Sciences, College of Humanities & Social Sciences, College of Natural Sciences & Mathematics, College of Pharmacy, College of Public Health, and Morsani College of Medicine. These disciplines will be included in future draft proposals
- At this time, no definitive decisions have been reached for any academic discipline
- Huron looks forward to hearing feedback from the USF community on this preliminary proposal
