

# Partner with *Outstanding* Supply Chain Students

**USF Muma**  
College of Business

Monica Wooden Center for Supply  
Chain Management & Sustainability  
UNIVERSITY of SOUTH FLORIDA

The **Monica Wooden Center for Supply Chain Management & Sustainability** provides vibrant, real-time supply chain management education for student success in and outside the classroom with the support of business partners. The program emphasizes the management of the flow of goods, services, and finances using current and future technology applications.

Business partners benefit from our students' impressive grit and hustle in multiple ways, including internship opportunities where they provide fresh perspectives and skills to their roles. As the only university in Florida to offer a Bachelor of Science and Master of Science in supply chain management as STEM degrees, our students stand out from the competition.

## Center Partnership Opportunities

Choose between two of our corporate partnership options: basic and premium. Supply chain partner members represent large, mid-sized and small companies amid a broad spectrum of industries, including manufacturers, retailers, technology companies and service providers. Business partners benefit from:

- ✓ Collaborating with top supply chain management students who offer diverse perspective to business challenges, through internships and co-ops. These students earn a Citizen Data Science certificate through the college and are trained in their soft skills through the Bellini Certification program, a talent and career development hub exclusively available to Muma College of Business undergraduates.
- ✓ Opportunity to engage in company led research.
- ✓ Significant recruitment cost savings through participation in bi-annual “Meet The Employer” events held each fall and spring.

	Basic	Premium
