Curriculum Vitae

Name: **Jerome Timothy Galea**

Date Prepared: June 12, 2023

Office Address: University of South Florida
College of Behavioral and Community Sciences
School of Social Work
4202 E. Fowler Avenue, MHC 1420
Tampa, FL 33620, USA

Work Phone: (813) 974-2610

Work Email: jeromegalea@usf.edu

Orchid ID: https://www.orcid.org/0000-001-8732-6959

ResearchGate: https://www.researchgate.net/profile/Jerome-Galea

ACCESS Lab: https://www.usf.edu/cbcs/social-work/access-lab/

Work Fax: +1 (813) 974-4675

Education

1991	AB	Psychology	University of Michigan
1999	MSW	Children, Youth and Family	University of Washington
2014	PhD	HIV Prevention Science (John Imrie, PhD)	University College London

Postdoctoral Training

1/2015-6/2017	Research Fellow in Global Mental Health Implementation Science	Harvard Medical School

Licenses and Certifications

5/2023	Licensed Clinical Social Worker (LCSW #21566), State of Florida
6/2020	Certificate in Psychological First Aid
5/2020	Certificate in Interpersonal Therapy (IPT), Columbia University
10/2019	Certificate in Mental Health First Aid
12/2019	USF Certified Online Instructor
12/2019	Certificate in Implementation Research with a focus on diseases of poverty from the World Health Organization

Faculty Academic Appointments

Primary:

6/2023-	Associate Professor	School of Social Work	University of South Florida
8/2018-6/2023	Assistant Professor	School of Social Work	University of South Florida

Additional:

1/2021-	Lecturer	Global Health and Social Medicine	Harvard Medical School
5/2019-	Assistant Professor, Courtesy	College of Public Health	University of South Florida
8/2017-12/2020	Research Faculty	Harvard-Dubai Center	Harvard Medical School
7/2017-8/2018	Research Associate	Global Health and Social Medicine	Harvard Medical School

Other Professional Positions

2001-2003	Research Consultant	*Impacta*, Lima, Peru
1995-2001	Research Coordinator	University of Washington

Major Administrative Leadership Positions

Local

2004-2010	Regional Director, Latin America	University of California, Los Angeles David Geffen School of Medicine UCLA Program in Global Health
2003-2006	Deputy Director	University of California, Los Angeles UCLA School of Public Health Behavioral Epidemiology Research Group

National and International

2022-	Health and Policy Advisor	Partners In Health, Boston
2019-	Research Advisor	USF Bridge Clinic, Social Work Unit, Tampa
2017-2020	Senior Strategic Advisor	*Socios En Salud*, Lima, Peru
2015-2017	Deputy Director	*Socios En Salud*, Lima, Peru
2014-2015	Director of Programs	*Socios En Salud*, Lima, Peru
2010-2014	Research Project Director	*Socios En Salud*, Lima, Peru

2008-	Investigator	*Epicentro* LGBTQ Center, Lima, Peru
2008-2010	Executive Director and President	*Epicentro* LGBTQ Center, Lima, Peru

Committee Service

National and International

2021-2023	WHO Expert Group for the integration of depression identification and care with tuberculosis treatment programs	Member
2021-2022	WHO Expert Group for the development of an implementation guide for the integration of caregiver (maternal) mental health in maternal and child health services and programs	Member
2021-2022	WHO Expert Group for the development of a collaborative care guide for depression in physical disease programs	Member
2021-	Early Career Reviewer (ECR) program at the Center for Scientific Review (CSR), National Institutes of Health	Member
2019-2022	Florida HIV Conference Planning Committee	Member
2019-2020	WHO Expert Group for the Development of a Maternal Mental Health Manual	Member
2016-2019	Latin American Task Force for PrEP Scale-Up	Member
2017-2023	The Union – TB/Mental Health Working Group	Co-Chair
2016-2017	*Socios En Salud* Global Health Delivery Conference	Co-Chair
2015-2019	Gay Latino	Advisory Committee Member
2015-2020	International Rectal Microbicides Advocates	Founding Member
2014-2016	*Socios En Salud* Research Committee	Chair

University

2022-	USF College of Behavioral and Community Sciences Research Council	Member
2021-	School of Social Work Faculty Evaluation	Member
2021-2022	School of Social Work Faculty Advisory	Member
2021-2022	USF College of Behavioral and Community Sciences Faculty Council	Member
2019-2023	School of Social Work PhD Committee	Member

2019-2020	School of Social Work MSW/MPH Dual Degree Program	Chair
2019-2020	USF Presidential Committee on Issues of Sexual Orientation and Gender Identity (CISOGI)	Member
2019-2020	School of Social Work, Space Committee	Chair
2018-2019	School of Social Work, Faculty Evaluation Committee	Member
2018-2019	School of Social Work Faculty Search Committee	Member
2018-2021	USF College of Behavioral and Community Sciences Diversity Committee	Member

Professional Societies

2023-	American Psychological Association (APA)	Member
2022-2023	American Public Health Association	Member & Abstract Selection Committee Reviewer
2019-2022	Society for Social Work Research	Member
2018-	National Association of Social Workers	Member
2015-2016	International Papillomavirus Society	Member & Abstract Selection Committee Reviewer
2010-2023	International Union Against Tuberculosis and Lung Disease	Member
2006-	International AIDS Society	Member & Abstract Selection Committee Reviewer

Grant Review Activities

2023	Harvard University Center for AIDS Research (CFAR) Developmental Awards, January and June 2023.	Ad hoc member
2022	USF College of Community and Behavioral Sciences Internal Grant Fall Cycle, December 2022.	Member

Editorial Activities

2022-	Cambridge Prisms: Global Mental Health	Editorial Board Member
2021-2022	Frontiers in Public Health, Public Mental Health Section: Special Issue on Noncommunicable Diseases and Mental Health Experiences during the pre and post COVID-19 era	Guest Co-Editor
2019-	Annals of LGBTQ Public and Population Health	Editorial Advisory Board Member
2018-	PLOS One	Academic Editor

Ad Hoc Reviewer for peer-reviewed journals

1. AIDS and Behavior
2. AIDS Care
3. BMC Psychiatry
4. BMJ Open
5. Drug and Alcohol Dependence
6. Families and Society
7. Global Mental Health
8. Global Public Health
9. Health Security
10. International Journal of STD & AIDS
11. Infectious Diseases
12. Infectious Diseases of Poverty
13. Journal of Behavioral Medicine
14. Journal of the International AIDS Society
15. Journal of Medical Internet Research

25. The Lancet HIV
26. Transgender Health

Honors and Prizes

2022	Awarded the Collaborative Initiative for Paediatric HIV Education and Research (CIPHER) mentored research award, presented at the International AID Conference, Montreal, August 1, 2022.
2021	Nominee: USF Excellence in Research Award
2019	Scholarship to attend and present an oral abstract at the IAS 2019 Conference, Mexico City, Mexico
2015	Harvard Medical School Abundance Foundation Fellowship in Global Mental Health in Implementation Science, postdoctoral award
2015	Scholarship to attend and present an oral abstract at the 30th International Papillomavirus Conference, Lisbon, Portugal
2012	Scholarship to attend and present an oral abstract at the 2012 International Microbicides Conference, Sydney, Australia
2010	Scholarship to attend and present an oral abstract at the 2010 International Microbicides Conference, Pittsburgh, USA

Funded Research Projects

Current

2023

Title: Collaborative Care for USF Pediatric Outpatient Care

Funder: USF Department of Pediatrics

Role: Co-Principal Investigator (Co-PI: Emmanuel, P)

The goal of this project is for the School of Social Work and the Pediatric Department to work together to create the infrastructure and processes that will foster the integration of social work in the pediatric primary care clinics. This will be a one year one-year pilot and begin at the USF 17 Davis clinic.

2022-2023 Title: Disease Investigator Specialist Academy (DISTA)

Funder: State of Florida

Role: Co-Investigator (PI: Somboonwit, C)

The overall objective of DISTA is to develop a sustainable public health workforce more specific to Disease Intervention Specialists (DIS) and other public health workforce in communicable diseases and public health readiness. DISTA provides a multi-disciplinary approach to train and provide career ladders to the public health and/or health care workforce. The Training Academy will seek to reduce DIS attrition, provide a comprehensive and cross-disciplinary pathway to prepare new public health workers for their DIS role, and provide advanced and specific training that supports current employee growth in their public health professional career.

2023-2028 Title: Understanding and addressing geographic barriers to accessing TB services in a high burden urban setting

Funder: NIH/NIAD: R01AI168424-01A1 (PI: Jenkins, H)

Role: Co-Investigator

Tuberculosis (TB) is curable but remains one of the top 10 causes of death globally. Middle-income countries (MIC) have 86% of the global TB burden, with much of this burden concentrated in urban settings. Around 30% of people with TB are not diagnosed, and among those who start treatment, around 15% do not achieve a successful outcome. Undiagnosed and untreated TB drive continued transmission, morbidity, and mortality. TB elimination requires an improved understanding of how to reduce barriers to diagnosis and treatment. Geographic barriers to accessing TB services – e.g., long travel times, lack of public transit, and difficult terrain – can contribute to both undiagnosed and untreated TB. There is limited knowledge about how geographic access barriers impact TB outcomes in MIC urban settings, how best to measure geographic accessibility in these settings, and, most critically, how to design interventions that address intersecting access barriers, thus improving TB diagnosis and treatment. In this project, in Lima, Peru, we will: 1. Develop a community-level risk score that predicts incomplete TB treatment, 2. Understand how geographic accessibility contributes to diagnostic delay at the individual level, and 3. Identify treatment support interventions for addressing geographic and other access barriers that are optimal for different types of patients.

2023-2025 Title: Spanish-language Lay-delivered Behavioral Activation in Senior Centers.

Funder: NIH/NIMH - 3R01MH124956-03S1 (PI: Gum, A)

Role: Co-Investigator

In response to large numbers of senior center clients who suffer untreated depression and the dearth of geriatric mental health providers, we have simplified Behavioral Activation to be delivered by lay volunteers (“Do More, Feel Better”; DMFB). The focus of Behavioral Activation is to guide clients to reengage in daily pleasant and rewarding activities and reduce depressive symptoms. If we can show that the lay delivery model

has positive impact in comparison to clinician-delivered Behavioral Activation, we will have identified an effective intervention that can be used by a large untapped workforce of older adult volunteers across the nation; this Spanish language initiative has the potential to reach the large and growing numbers of Spanish-speaking older Americans, many of whom experience depression and barriers to accessing mental health services.

2022-2027 Title: Efficacy of a differentiated care intervention for adolescents transitioning to adult HIV care in Peru

Funder: NIH/NIMH - 1R01MH131414-01 (PI: Franke, M)

Role: Co-Investigator

The transition to adult HIV care is often accompanied by reduced medication adherence, retention in treatment, and HIV viral load suppression; however, little is known about which interventions might be most effective in supporting adolescents undergoing this care transition. We will estimate the short- and long-term efficacy of a community-based differentiated care intervention to support adolescents during their transition to adult HIV care; estimate the cost and cost-effectiveness in terms of cost per additional successful transition achieved; and provide data on implementation considerations essential for uptake, sustainability, and successful adoption by the public sector.

2022-2025 Title: Feasibility of a Community-engaged Social Marketing Strategy to Reduce HIV-related Stigma and Improve Health among Young People.

Funder: NIH/FIC - 1R01TW012394-01 (PI: Franke, M)

Role: Co-Investigator

In this project, we will evaluate the feasibility of a social marketing public health strategy for reducing HIV-related stigma, and associated intersectional stigma, among young people in an urban Latin American setting. First, we will identify key anti-stigma messages and change goals. Next, we will develop and pilot-test a suite of locally tailored Spanish-language multimedia tools. Finally, we will examine the feasibility of collaborating with key societal influencers in Peru to disseminate health-related messages via social media.

2022-2024 Title: Development and pilot testing of an optimized conversational agent or "chatbot" for Peruvian adolescents living with HIV to facilitate mental health screening, education, self-help, and linkage to care.

Funder: International AIDS Society, CIPHER Program

Role: Principal Investigator

This proposal develops and tests for feasibility and acceptability of a “chatbot” to deliver depression education, self-help skills, and care linkage for adolescents living with HIV (ALWH) in Lima, Peru and builds on several years’ experience by our team in providing accompaniment to ALWH struggling to maintain optimal antiretroviral adherence.

Borne out of our work with Peruvian ALWH, this project is in direct response to their request to increase access to depression care services.

2022-2023 Title: From ambivalence to action—using a conversational agent or "chatbot" to support smoking cessation: a proof-of-concept study

Funder: University of South Florida, New Investigator Research Grant

Role: Principal Investigator (Co-Investigator, Nair, U)

Smoking is the leading preventable cause of disease and death in the US, and while about 68% of adult smokers want to quit, less than a third actively seek cessation services. Lacking are low-cost, scalable interventions that support smokers unready to quit ("ambivalent smokers") to gradually promote smoking behavior changes until motivation to quit arises, at which time they can be navigated to evidence-based smoking cessation interventions. This project will develop and pilot test preliminary feasibility and acceptability of a smoking cessation support chatbot.

2022-2023 Disclosure Deliberation Using Chatbot Technology

Funder: University of South Florida College of Behavioral and Community Sciences Internal Research Grant

Role: Co-Principal Investigator (Co-PI, Kosyluk, K)

This project aims to use human-centered design methods to develop a chatbot to aid college students with mental illness to tackle disclosure decisions.

2021-2022 Title: A Solution to Halt Further Isolation of People Aging with HIV During the COVID-19 pandemic

Funder: Merck Pharmaceuticals (PI: Brown, B)

Role: Co-Investigator

The overall objective of this research is to develop a "virtual village" for use by older people living with HIV (PLWH) so that they can remain socially connected during the COVID-19 pandemic and beyond. This is an innovative solution to address issues related to isolation for older PLWH which have been exacerbated during the COVID-19 pandemic. The tools and protocols developed through this research will be applicable beyond the HIV context and can be adapted for people who are isolated or living with other chronic conditions.

2021-2022 Title: Evaluating the impact of incentives on clinical trial participation

Funder: Merck Pharmaceuticals (PI: Brown, B)

Role: Co-Investigator

The objective of this research is to investigate the impact of incentives on clinical trial participation. Little is known about the topic, and while some ethics guidance exists on payment in research, there is no understanding of how key stakeholders (study participants, researchers, and IRB members) view and consider incentives in research projects. Considering its robust, historical commitment to social justice, and our own expertise in HIV research, the HIV community is the ideal group in which to initiate this work; however, the tools we develop, and lessons learned will be transferable to other areas of research.

Past

2020-2021 Title: Bending the Mental Distress Curve Among COVID-19 Responders: A Pilot Feasibility Study

Funder: University of South Florida, PRRN Grant (Co-PI Kosyluk, K)

Role: Co-Principal Investigator

This project developed and tested for feasibility and acceptability a chatbot aimed at screening and referring first responders experiencing mental distress to care matching their intensity of need, readiness for change, care preferences, and level of stigma surrounding help-seeking.

2020-2021 Title: Developing a Business Model for the "TABATHA" (Tampa Bay Area Treatment & Health Advisor) Chatbot

Funder: National Science Foundation Innovation Corps (I-Corps) (Co-PI Kosyluk, K)

Role: Co-Principal Investigator

This funding supported the exploration of the potential business market for the TABATHA chatbot, which aims to address behavioral healthcare systems demands and the mental health care gap through screening and referral to services matching the intensity of one's needs.

2019-2021 Title: Transitioning from the Pediatric to the Adult Care Setting – Project PASEO

Funder: NIH/NIMH R21 (PI: Franke, M)

Role: Co-Investigator

By building on our well-established community-health platform and existing intervention research with HIV-positive adolescents in urban Lima, Peru, we sought to fill a key implementation gap by examining whether a community-based accompaniment intervention delivered by community health workers is efficacious in bridging the transition for adolescents from pediatric to adult HIV care. This study sought to determine the feasibility of community-based accompaniment as an intervention for bridging the transition to adult HIV care in two groups of adolescents in Peru (perinatally infected adolescents and newly diagnosed young men who have sex with

men and transgender women) and collect information critical to informing a future randomized, clinical trial**.**

2018-2020 Title: Halting All Types of Tuberculosis (HALT-TB)

Funder: HMS Center for Global Health Delivery, Dubai (Keshavjee, PI)

Role: Co-Investigator, Peru Site

This project comprised implementation research and impact evaluation of interventions for tuberculosis (TB) active case-finding and treatment of tuberculosis infection in Peru, Kenya, and Pakistan. In each of these sites, mobile digital radiograph units provided rapid screening of TB hotspots previously identified by epidemiological surveillance; in Peru, we plan to screen 100,000 persons. A major component of this project involved community engagement. Using a social justice/rights-based perspective and informed by the theory of diffusion of innovations, we promoted TB screening by working with community leaders and other stakeholders to disseminate messages encouraging uptake of TB screening and linkage to care and provision of community-based mental health services.

2019-2020 Title: WHO EQUIP: Ensuring Quality in Psychological Support.

Funder: WHO (PI: Khort, B)

Role: Co-Investigator

The goal of this project was to test a platform for training and supervision of mental health and psychosocial support helpers (particularly non-specialist providers) by applying the platform to helpers who will deliver WHO low-intensity psychological interventions and related non-WHO psychological interventions. This platform, entitled Ensuring Quality in Psychological Support (EQUIP), is an online resource being developed to include materials for evaluating core and specific competencies, training and training remediation for learning and attaining core competencies, and implementation guidance on designing and conducting competency-based trainings and supervision. The research evaluated the feasibility, acceptability, perceived utility, reliability, and validity of the EQUIP platform and its materials in seven (7) countries: Jordan, Kenya, Lebanon, Peru, Uganda, Zambia and Ethiopia.

2019-2020 Title: Project SexFlow: Mapping HIV among Venezuelan migrants in Peru

Funder: Nueva Universidad San Juan de Bautista, Peru (PI: León, S)

Role: Co-Investigator

This was a large epidemiological study of HIV, sexually transmitted infections and associated risk factors among recent Venezuelan migrants in Peru.

2015-2019 Title: Investigating off-prescription use of pre-exposure prophylaxis for HIV prevention

Funder: AVAC (Co-PI: Gorbach, P)

Role: Co-Principal Investigator

This project investigated the use of antiretroviral medication (ARV) to prevent people from acquiring HIV in countries where these drugs were not formally approved for such use. The aim is to understand, at a global level, the current practices and experiences of the clinicians who prescribe ARV and the patients who take them.

2016-2018 Title: Diagnostic and treatment delays in pediatric tuberculosis.

Funder: American Lung Association (PI: Franke, M)

Role: Co-Investigator

TB is difficult to diagnose in children. Treatment delays can lead to severe and fatal forms of TB which itself is often undetectable with usual tests in children. As a result, clinicians must diagnose TB based on signs and symptoms. This study examined two key knowledge gaps about TB treatment delays in children to: (1) Understand how recently revised consensus criteria for standardized clinical case definitions for pediatric TB intersect with clinical diagnoses; and, (2) identify the factors that impede or facilitate rapid TB treatment initiation following a TB diagnosis through qualitative interviews with parents, providers, and field workers.

2015-2018 Title: Metabolic factors that control the spectrum of human tuberculosis

Funder: NIH/NIAID 1U19AI111224-01 (PI: Moody, B)

Role: Director, Human Subjects Core

This project addressed the link between metabolic and immunological determinants of TB, the function of T cells in TB infection, the determinants of TB drug resistance and the potential for improved diagnostics that identify pathogen-shed molecules in human samples.

2014-2018 Title: Integrated discovery and development of innovative TB Diagnostics

Funder: NIH/NIAID 1U19AI109755 (PI: Murray, M)

Role: Project Director

This study laid the foundation for the development of a rapid, inexpensive

tool to address these challenges through biomarker discovery and analysis, optimization of sampling strategies for children and the development and optimization of a micro-array-based test for TB and drug resistance.

2011-2016 Title: The role of genital warts in HIV acquisition among MSM in Lima, Peru

Funder: Merck IISP #39619 (Co-PI: Brown, B)

Role: Co-Principal Investigator

The primary objective of this study was to determine the role of GW on HIV acquisition among MSM in Peru. The secondary objectives were to determine HPV prevalence in

HIV positive MSM in Peru, and the knowledge of HPV and HIV among MSM.

2011-2012 Title: Sexual health, community education, and STI outreach activities for MSM

Funder: USAID/Peru Development Assistance Fund Program (Co-PI: Brown, B)

Role: Co-Principal Investigator

This project implemented a community-based HIV/STI clinic for MSM and provided training for volunteer counselors and clinicians.

2009-2011 Title: Acceptability of Rectal Microbicides (RM): Barriers and facilitators of RM use among MSM in four South American cities

Funder: UCLA AIDS Institute AI28697 (PI: Cunningham, W)

Role: Co-Investigator

This study examined the acceptability of using rectal microbicides (RM) and participating in RM clinical trials among MSM and TGW in Peru, Ecuador and Brazil.

2010-2015 Title: Using online social networks for HIV prevention in African American/Latino MSM

Funder: NIH/NIMH (PI: Young, S)

Role: Peru site Co-Investigator

This study evaluated the acceptability, feasibility, and preliminary effectiveness of using online social networks to increase HIV prevention among Peruvian MSM.

2010-2014 Title: Prevalence, risk factors and consequences of complex M. Tuberculosis infections

Funder: NIH/NIGMS 1DP2OD00663 (PI: Cohen, T)

Role: Project Director

This study evaluated the prevalence, risk factors and consequences of complex M. tuberculosis infection in Pietermaritzburg, South Africa.

2007-2014 Title: Epidemiology and transmission dynamics of MDR/XDR tuberculosis

Funder: NIH/NIAID U19 AI-076217-01 (PI: Murray, M)

Role: Project Director

This multidisciplinary study explored pathogen, host, and environmental factors on the distribution and dynamics of highly drug-resistant tuberculosis in Lima, Peru among a population-based cohort of 15,000 participants.

2006-2012 Title: *Comunidades positivas* and enhanced partner therapy in Peru

Funder: NIH/NIMH (PI: Coates, T)

Role: Project Director

This project tested two interventions (one behavioral and one biomedical) to prevent HIV and STI transmission among HIV- or STI-positive men who have sex with men in Lima, Peru.

2006-2011 Title: Epidemiology of multidrug-resistant tuberculosis

Funder: NIH/NIAID U01 AI057786 (PI: Becerra, M)

Role: Project Director

The goal of this project was to provide new knowledge about the transmission dynamics of multidrug-resistant tuberculosis in a high TB-burden area in Peru and included measurement of within-household transmission of various strains of TB, the impact of socio-demographic and clinical confounders and risk modifiers, and measure associations between specific resistance mutations and phenotypes.

2008-2009 Title: Effectiveness of Community-Level Behavioral and Biomedical Interventions for Reducing HIV/STIs in Men in Peru

Funder: NIH/NIMH R01 MH078752 (PI: Coates, T)

Role: Project Director

This tested two interventions (one behavioral and one biomedical) to prevent HIV and STI transmission among HIV- or STI-positive men who have sex with men in Lima, Peru.

2005-2009 Title: Integrating HIV/STI Prevention/Treatment in China

Funder: NIH/NIMH R01 MH075639 (PI: Coates, T)

Role: Project Director

This collaboration between the University of California, Los Angeles, University of California, San Francisco, University of Oxford and Anhui Medical University aimed to teach physicians how to enhance and integrate prevention and care for HIV and STIs.

2004-2009 Title: NIMH Collaborative HIV/STD Prevention Trial

Funder: NIMH U10 MH061536 (PI: Coates, T)

Role: Project Director, Peru Site

The NIMH Collaborative HIV/STD Prevention Trial was a two-arm randomized, community-level trial conducted in five countries: China, India, Peru, Russia, and Zimbabwe. It was the first international test of a community-level prevention program based on the theory of diffusion of innovations utilizing Community Public Opinion Leaders (C-POLs). Based on a set of ethnographic studies conducted over 18 months and a series of epidemiological studies with over 9000 participants in the five countries, an assessment and the CPOL intervention was culturally adapted, piloted, and mounted

in randomly chosen venues in each country. The intervention's efficacy in reducing self-reported behavioral risk with non-spousal partners and incident sexually transmitted diseases was on a baseline, 12- and 24- month interviews and collection of biological specimens.

2004-2009 Title: Rectal Health, Behaviors and Microbicide Acceptability

Funder: NIH/NIAID U19 AI60614 (PI: Anton, P)

Role: Project Director

This study guided the development of rectal microbicides by providing descriptive data on anal sex, anal health, and the acceptability of carrier methods for rectal microbicides. We tested hypotheses associating sexual behaviors (receptive anal intercourse) and anal health among 896 men and women including HIV positive and negative subjects in Los Angeles and Baltimore.

2003-2008 Title: HIV/AIDS Risk Behaviors in Methamphetamine User Networks

Funder: NIH/NIDA DA-03-01 (PI: Shoptaw, S)

Role: Project Director

This was a cohort study of drug using men who have sex with men (MSM), drug using MSM/W, and non-drug using MSM and their male and female sexual partners that examined the diffusion of HIV and STI in drug users in LA County to identify the individual-level, partnership-level, and environmental factors that promoted the spread of these diseases.

1998-2004 Title: STDS and Heterosexual 'Bridging' Among Men Who Have Sex with Men: Project Explore

Funder: NIH/NIAID 5U01AI047981-04 (PI: Celum, C)

Role: Study Coordinator

This study tested a 10-session behavioral, motivational interviewing counseling intervention based on the theory of Stages of Change among 725 men who have sex with men in Seattle, WA.

Report of Local Teaching and Training

Teaching of Students in Courses

2023	The Social Work Educator (SOW 7776) First year Doctoral Students	University of South Florida, School of Social Work 1, 165-minute session per week for 15 weeks

2022	Cognitive Behavioral Therapy (SOW 6931). Graduate students.	University of South Florida, School of Social Work On-line MSW program, delivered over 15 weeks
2022	USF Peru: Global Health and Mental Health Practice (SOW 4930 & 6931, Study Abroad, Peru). Undergraduate and Graduate students.	University of South Florida, School of Social Work May intensive Global Mental Health course including 2 weeks in Lima, Peru accompanying the *Socios En Salud* mental health team.
2022	Diversity and Social Justice (SOW 6348) First semester MSW students	University of South Florida, School of Social Work On-line MSW program, delivered over 15 weeks
2022	The Social Work Educator (SOW 7776) First year Doctoral Students	University of South Florida, School of Social Work 1, 165-minute session per week for 15 weeks
2021	Research and Statistics for Social Work (SOW 3401) First semester BSW students	University of South Florida, School of Social Work 2, 75-minute sessions per week for 15 weeks
2021	Field Instruction II (SOW 6553)	University of South Florida, School of Social Work 5, 165-minute sessions delivered over 15 weeks
2021	Thesis Analysis (GH 914) MMSc-GHD students	Harvard Medical School, Master of Medical Sciences in Global Health Delivery, MMSc-GHD 5-day intensive writing workshop mentor
2021	The Social Work Educator (SOW 7776) First year Doctoral Students	University of South Florida, School of Social Work 1, 165-minute session per week for 15 weeks
2021	Diversity and Social Justice (SOW 6348) First semester MSW students	University of South Florida, School of Social Work On-line MSW program, delivered over 15 weeks
2020	Happiness and Wellbeing (SOW 3802) Third- and Fourth-year students	University of South Florida, School of Social Work 2, 75-minute sessions per week for 15 weeks
2020	Multicultural Social Work Practice (SOW 4522) First semester BSW students	University of South Florida, School of Social Work 1, 165-minute session per week for 15 weeks

2020	Diversity and Social Justice (SOW 6348) First semester MSW students	University of South Florida, School of Social Work On-line MSW program, delivered over 15 weeks
2020	Human Behavior in the Social Environment (SOW 3101) First semester BSW students	University of South Florida, School of Social Work 2, 75-minute sessions per week for 15 weeks
2019	Multicultural Social Work Practice (SOW 4522) First semester BSW students	University of South Florida, School of Social Work 1, 165-minute session per week for 15 weeks
2019	Human Behavior in the Social Environment (SOW 3101) First semester BSW students	University of South Florida, School of Social Work 2, 75-minute sessions per week for 15 weeks
2018	Social Welfare Policy Analysis (SOW 4233) Second semester BSW students	University of South Florida, School of Social Work 2, 75-minute sessions per week for 15 weeks
2018	Essentials of the Profession Social Medicine First year medical students	Harvard Medical School 2, 120-minute sessions per week for 4 weeks

Formally Supervised Trainees

2021- Amy Nourie, MSW: Ms. Nourie is a doctoral student at the University of South Florida, School of Social Work. I serve on Ms. Nouri's doctoral committee.

2021- Alexander Chu, MPhil, BsC (hons): Mr. Chu is a third-year M.D. candidate at Dell Medical School, The University of Texas at Austin interested in global health equity. He is particularly interested in the epidemiology of tuberculosis and emerging infectious diseases, the intersection between mental health and tuberculosis, and the use of community-level interventions in global health delivery. I am mentoring him in the exploration of depression as it relates to latent tuberculosis infection. Mr. Chu had an abstract accepted at the Union Conference on TB and Lung Disease and is preparing a manuscript for publication, and we have co-authored two peer-reviewed manuscripts.

2021- Karah Greene, BSW, MSW: Ms. Greene MSW is a doctoral student at the University of South Florida, School of Social Work and member of my ACCESS lab. Ms. Green is receiving direct mentorship from me in her role as Study Coordinator for multiple research studies. Additionally, Ms. Greene has presented worked conducted from my lab at two scientific conferences and is co-author on several peer-reviewed, published manuscripts.

2020- Erik Ruiz, MPH: Mr. Ruiz is a doctoral student at the University of South Florida, College of Public Health and a member of my ACCESS Lab. Mr. Ruiz co-coordinated a Merck-funded grant on HIV and aging as part of my lab, and lead author on a peer-

reviewed, published manuscript on HIV and ageing for *Current Opinion in HIV/AIDS*. I serve on Mr. Ruiz's doctoral committee.

2020-2023 Gabriella Sanabria, MPH is a doctoral student at the University of South Florida, College of Public Health and a member of my ACCESS Lab where she co-coordinates the development of a chatbot resource navigator for youth at risk of STI. I served on Ms. Sanabria's doctoral committee, and she is co-author of a peer-reviewed manuscript on mental health experiential learning among MSW students.

2020-2022 Lacy Tucker, MSW, is a doctoral student at the University of South Florida, College of Behavioral and Community Sciences. In addition to serving on Ms. Tucker's PhD committee, I provided mentorship in her developing interest in low-intensity mental health interventions.

2021 Afom Adom, MD: Dr. Adom was a MMSc-GHD student at Harvard Medical School: I provided mentorship and coaching to Dr. Adom on his master's thesis writing assignment in qualitative data analysis and data reporting.

2021- Sara Romero, PhD: Dr. Romero is a postdoctoral fellow in the Department of Global Health and Social Medicine at Harvard Medical School. Dr. Romero's work centers on the interplay of cultural values and psychosocial factors on stress and trauma reactions within Latinx communities in Latin America and the United States and is currently awaiting response on a recently submitted NIH K-application. I provide support and mentorship to Dr. Romero to liaise her interests with global mental health work at Partners In Health's Lima, Peru site. Dr. Romero participates with my group in: 1. The ACCESS Lab (see: https://www.usf.edu/cbcs/social-work/access-lab/index.aspx) which meets twice monthly; 2. Up to Me Chatbot Mental Health Stigma Reduction Chatbot meetings (weekly); 3. Individual manuscript preparation meetings (twice monthly).

2021-2022 Brennan Ninesling, MD, MPH: Mr. Ninesling is a graduate of the Global Health MPH at the Harvard T.H. Chan School of Public Health and Morsani School of Medicine at the University of South Florida. I mentored Mr. Ninesling on qualitative research methods via applied data analysis of data from a NIH-R21 (PI: Molly Franke, HMS) for which I served as Co-Investigator; Dr. Ninesling is a co-author on a manuscript in *JIAS*.

2020-2022 Jennifer Tran, PhD, MEd: I served on the PhD dissertation committee for Ms. Tran at USF Mental Health, Law and Policy, in her work on the use of narrative (storytelling, voice, and artistic expression) as a tool for change in addressing stigma for individuals within the intersecting stigmatized identities, specifically for individuals who are LGBTQ+ and live with a mental illness. Ms. Tran graduated in May 2022 and we share co-authorship on 3 articles.

2020- Luis Menacho, MD, MPH: I am mentoring Dr. Menacho in qualitative methods as part of his NIH K award: A mobile phone short message service intervention to increase retention in HIV care among HIV-positive men who have sex with men in Peru (WelTel Peru). In this capacity, I am helping guide his qualitative methodology for the project's research activities. I have published 3 peer-reviewed articles with Dr. Menacho in *AIDS & Behavior*, *Lancet HIV* and *AIDS Care*. Dr. Menacho is a physician and Epidemiologist

of the Unit of Epidemiology, HIV and STIs at the Peruvian Cayetano Heredia University (UPCH).

2020- Shelton Gilyard, MSW: Mr. Gilyard is a doctoral student at USF, Social Work, and I serve as Co-Chair of his committee, alongside Dr. Fogel from Social Work. Mr. Gilyard currently leading the implementation of a chatbot to screen adolescents at risk of HIV and other STI, and will be co-author on a forthcoming peer-reviewed manuscript. Mr. Gilyard has presented work completed as part of my ACCESS lab at the Florida HIV conference in 2021.

2020 Hunter Harrison, MPH: I mentored Mr. Harrison as an MPH candidate for the USF College of Public Health for his final master's project. Mr. Harrison learned how to program and administer a RedCap survey, and the data collected led to his successful graduation from the master's program.

2019- Carmen Contreras, BA, Harvard Lead Fellow: I mentor Ms. Contreras on strategic issues related to the development and expansion of the mental health program she directs at the Peru Partners In Health site; the development of grants for which we serve as Co-Investigators; and the development and publication of peer-reviewed manuscripts. To date, Ms. Contreras and I share co-authorship on 40+ peer reviewed journal articles. She is also the Co-Investigator for the CIPHER award (2022-2024) and joined the USF School of Social Work as a Courtesy Faculty Member in 2023.

2019 Caroline Muster, MSW, LCSW: I mentored Ms. Muster during her time as a Social Work doctoral student at the University of Florida, School of Social Work. Ms. Muster learned how to write study protocols and Human Subjects applications; program study questionnaires; collect and analyze data; and prepare and submit manuscripts. Her work resulted in co-authorship of peer-reviewed manuscript in the *Journal of Pregnancy Hypertension.*

2019 Renato Errea, MD, MMSc: I mentored Dr. Errea in the design and implementation of his masters in global health equity research project at Harvard Medical School. Dr. Errea's study, "Describing the breast cancer cascade of care, its delays and barriers among women with a high-risk tele-mammography screening result in Peru: a mixed methods study," providing specific training in qualitative methods: research question formation; creation of spatial maps and questionnaire guides; data collection and processing; data coding; and, manuscript preparation. His work was published in *BMC Open Health.* Dr. Errea is a Teaching Assistant and Universidad Peruana Cayetano Heredia and Monitoring and Evaluation Coordinator for the health-focused humanitarian organization Americares in Peru.

2018- Silvia Chiang, MD, ScM: I provide mentorship on qualitative methods for Dr. Chiang on her NIH K mentored research award aimed at understanding diagnostic treatment delays for children and adolescents receiving treatment for tuberculosis in Lima, Peru. Dr. Chiang and I share co-authorship on 5 peer-reviewed publications.

2018 Julia Coit, MPH: I mentored Ms. Coit on qualitative methodology that she applied to several research projects in which she was previously managing only quantitative data sets. Her qualitative skills resulted in an oral abstract accepted at The Union Conference

in Geneva, October 2018 and a first-authored manuscript in the *International Journal of Tuberculosis and Lung Disease.* Ms. Coit is a Research Associate at Harvard Medical School.

2017 Brendan Eappen, BA: I mentored Mr. Eappen during his volunteer service at Socios En Salud in Lima, Peru where his primary activity was supporting the mental health team in the implementation of a community health worker delivered, low-intensity, perinatal depression intervention (The WHO's Thinking Healthy Programme). Mr. Eappen learned how to prepare and coordinate the implementation of this evidence-based health intervention and is first author on an article published *Global Mental Health* describing the implementation process. Mr. Eappen is a medical student at Harvard Medical School, Boston, U.S. and Co-Founder of the NGO, Fortify Health.

2017 Milagros Wong, RN: I provided qualitative methodology training for Ms. Wong throughout 2017 in preparation for a study to understand the barriers and facilitators to combination antiretroviral therapy adherence among Peruvian adolescents living with HIV. Instruction included: defining a research question; creating a qualitative cognitive map; interview guide development; conducting qualitative interviews; qualitative data management and coding; identification of salient themes; thematic mapping; and results dissemination. These activities culminated in a co-first authored publication published in *PLOS ONE*

2016 Rupinder Legha, MD: I provided daily mentorship for Dr. Legha (psychiatry) who completed her clinical global mental Health fellowship with Partners In Health and Harvard Medical School in residence in Lima Peru at Socios En Salud (SES) during January-June, 2016. During her time here, she provided accompaniment for the mental health team at SES, leading to the development of: psychoeducation materials for patients, families, and community health workers; a depression care pathway including the use of a standardized instrument (PHQ-9) for depression monitoring; and, the coordination of clinical services at the SES Interventions Unit. Dr. Legha is an Assistant Clinical Professor at the University of California, Los Angeles, Department of Psychiatry and Biobehavioral Sciences, U.S

2015 James Scuffell, MBChB, MSc: I mentored Dr. Scuffell, as fourth-year medical student working towards his MSc in the Control of Infectious Diseases program at the London School of Hygiene and Tropical Medicine in 2015, during which he spent 6-weeks in Lima, Peru collecting data on the factors associated with treatment failure among patients treated for extremely drug resistant TB (XDR-TB) in Lima. These data led to the successful completion of his MSc degree at the London School of and a publication for which he is first author *in Public Health Action*. In a separate project, I later collaborated with Dr. Scuffel in a second publication in the *International Journal of Tuberculosis and Lung Disease* for which he is co-first author. Dr. Scuffell is a medical Doctor at the National Health Service, UK.

2013 Sarah Naz-McLean, MSc: I mentored Ms. McLean her Masters project entitled "Analysing survey data from HIV/STI testing at a new community health centre for men who have sex with men (MSM) and transgender women (TGW) in Lima, Peru" resulting in the completion of her MSc degree at the London School of Hygiene and Tropical Medicine, two abstracts presented at the 2014 CDC STD Prevention Conference and a

published in the International Journal of STD and AIDS for which she is first author. Ms. Naz-McLean is a Program Manager at Brigham and Women's Hospital in Boston, U.S.

2013 Daniel Berrio Galán MBBS, MSc: I mentored Dr. Galán in 2013 during his Masters project entitled "Anogenital warts among community-based sample of HIV-negative MSM from Lima, Peru," resulting in an abstract accepted at the Joint BHIVA-BASHH conference in Liverpool and a manuscript published in Sexually Transmitted Infections and the completion of his MSc degree at the University College London. Dr. Galán is a medical doctor at the National Health Service, UK.

2011 Melanie Gelfand, MSc, MD: I mentored Ms. Gelfand in 2011 during her Masters project entitled "Barriers and Facilitators to Accessing HIV and STI Testing and Treatment for Men Who Have Sex with Men in Lima, Peru" which led to the completion of her MSc degree at the London School of Hygiene and Tropical Medicine. Dr. Gelfand is a medical doctor and Clinical Fellow at Boston Children's Hospital, U.S.

Laboratory and Other Research Supervisory and Training Responsibilities

2020- ACCESS Lab Director: The USF Social Work ACCESS Lab researches and implements evidence-based, low-intensity psychological interventions to treat depression and anxiety in under-resourced settings where little to no mental health services exist. Guided by community, human rights, and justice-based frameworks, the ACCESS lab helps the most vulnerable communities identify and sustainably implement efficacious interventions to treat common mental disorders. The ACCESS lab currently mentors 6 Social Work students (1 BSW, 2 MSW, 3 PhD) who are actively involved in research projects within my research portfolio.

2018-2020 Training of local investigators for research capacity building / Harvard Medical School Center for Global Health Delivery – Dubai, Dubai, UAE. In this capacity, I served as the qualitative research scientist providing support and mentorship to Investigators in qualitative research design, implementation, analysis, and manuscript preparation.

Report of Regional, National and International Invited Teaching and Presentations

National

2023 No Health Without Mental Health! Global Mental Health, Prioritized Populations and Scaling up Care. Invited lecture for the Osher Lifelong Learning Institute at USF, March 17, 2023.

2023 No health Without Mental Health! Integrating depression care with HIV prevention and treatment services. Invited lecture for the 2023 ANEW Conference, Southern Illinois University Edwardsville. March 26, 2023.

2023 No Health Without Mental Health! Integrating depression care with HIV prevention and treatment services. Invited lecture for the University of Arizona Global Health Speaker

Series, presented on January 19, 2023. Available at: https://www.youtube.com/watch?v=INeGL2ngP_8

2022 No Health Without Mental Health! Invited lecture for the 4th Activist Lab Boot Camp, College of Public Health, University of South Florida. January 28, 2022.

2022 *Hablemos de salud mental durante la pandemia.* Invited panelist, College of Public Health, University of South Florida. January 28, 2022. Available at: https://youtu.be/_ZP4K3MX8yc

2021 *El cuidado de pacientes con tuberculosis con un enfoque de justicia social y los determinantes de salud.* Invited presentation for USF Health International and Global Virus Network's Global Health Conversation Series. November 18, 2021. Available at: https://youtu.be/HcHlxtXWuMI

2021 Living and working abroad: My experience living and working in Peru for 15 years. Invited presentation for the USF branch of Médecins Sans Frontières, November 10, 2021.

2021 The PQH-9 for depression screening: Use and implications for patient wellbeing. Invited lecture for the BayCare Health System's Enterprise Care Coordination Office (ECCO), October 14, 2021.

2021 Scaling up Interventions in Low-Resource Communities. Invited panel discussant for the 8th Annual USF Translational Research in Adolescent Drug Abuse Conference, March 21-23, 2021.

2020 There is no health without mental health: Global Mental Health & The case of Peru. Invited lecture for course, "Clinical Topics in Urban and Global Medicine", Charles Drew University, Los Angeles, California.

2020 Mental Health and COVID-19: Service Delivery Models in Peru and Tampa. Invited lecture by USF Morsani School of Medicine, Tampa, Florida

2020 There is no health without mental health: Integrating depression care with HIV prevention and care services for gay men and transgender women. Invited lecture by St Jude Children's Research Hospital, Memphis, Tennessee.

2020 There is no health without mental health: Integrating depression care with HIV prevention and care services for gay men and transgender women. Invited lecture by the University of South Florida College of Public Health Activist Lab. Tampa, Florida. Available at: https://usfondemand.hosted.panopto.com/Panopto/Pages/Viewer.aspx?id=3031f616-2f4b-4823-bb72-ab49001b000f

2019 Invited panel member for World AIDS Day, College of Public Health.

2019 Training of Community Health Workers in rural Chiapas, Mexico to deliver a low-intensity depression intervention. Invited by the NGO Compañeros En Salud. Jaltenango De La Paz, Chiapas, Mexico.

2019 Closing the mhGAP: The Global Scale-up of Non-Specialist Depression Care. Invited talk for the USF School of Social Work Professional Advisory Council Meeting, Tampa, FL, 01 March 2019.

2014 No Butts About it: Rectal Microbicides and HIV Prevention for Anal Intercourse / Invited lecture Public Health Seminar Series, University of California, Irvine

2014 The role of conjoint analysis in microbicide development. Invited oral presentation at the Creating Desire for Microbicides meeting. Microbicide Trials Network, Washington DC

International

2022 *La salud integral: "Bots" y tecnología de uso diario.* Invited lecture for the *1er Congreso Científico Internacional Multidisciplinario, Universidad Privada, San Juan Bautista.* October 21, 2022.

2022 A non-specialist depression care pathway for adolescents living with HIV and transitioning into adult care in Peru: a nested, proof of concept pilot study. Invited lecture for the Socios En Salud Center for Global Health. July 6, 2022.

2021 *Salud mental en un mundo de desigualdad.* Invited moderator by Socios En Salud for World Mental Health Day. October 7, 2021.

2021 *Lucha Global contra la COVID-19: experiencias de Partners in Health*. Invited panelist for Socios En Salud's Anniversary Festival, Masters Conference Session. July 9, 2021.

2021 *Intervenciones de salud mental basadas en la comunidad para pacientes de COVID-19 y trabajadores en primera línea en Tampa, FL EEUU.* Invited lecture for the School of Medical Technology, Universidad San Juan Bautista, May 4, 2021

2020 *Intervenciones de salud mental basadas en la comunidad para pacientes de COVID-19 y trabajadores en primera línea en Tampa, FL EEUU.* Invited lecture for Socios En Salud and the Peruvian Ministry of Health for World Mental Health Day, October 9, 2020.

2019 *Cerrando la mhGAP: El Escalamiento Global del Cuidado de Depresión.* Invited lecture at the *School of Psychology, Universidad Privada San Juan Bautista*, Lima, Peru, May 4, 2019.

2016 *PrEP: ¿el fin de la epidemia de VIH para todos los hombres Gays?* (PrEP: The end of the HIV epidemic for all gay men?) Invited speaker at the Gay Latino Second Meeting Mexico City, Mexico.

2016 Co-managing psychiatric issues in patients undergoing treatment for MDR-TB in Peru: Invited speaker for symposium: "TB and mental disorders: putting the science into practice." 47th Union World Conference on Lung Health, Liverpool, UK.

2016	*El rol de Socios en Salud en la salud mental comunitaria* (The role of Socios En Salud in global mental health). Chair of the Global Mental Health Roundtable at the First Symposium on Tuberculosis and Global Health.
2012	*Microbicidas Rectales: Más allá de lo eficaz* (Rectal Microbicides: beyond efficacy) / invited presentation for the 11º Simposio Internacional SIDA 2012 y 1º Simposio Internacional Hepatitis. Fundación Huésped, Buenos Aires, Argentina
2009	No Butts About it: Rectal Microbicides and HIV Prevention for Anal Intercourse / invited lecture for the Centre for Evidence Based Intervention Multidisciplinary Seminar Series, University of Oxford, Oxford England
2008	*Microbidicas y la prevención de la infección por VIH* (Microbicides and the prevention of HIV Infection) / invited lecture for the XVII Jornada Científica de laboratororio clínico y anatomía patológica. San Marcos University, Lima, Peru

Community input to develop an online platform for older adults aging with HIV: preliminary results from potential users in three U.S. cities. E-Poster accepted for the AIDS 2022 Conference, Montreal, Canada, July 29-August 2, 2022.

13. Green KY*, Nguyen AL, Brown B, Ruiz EL*, Polonijo AN, Yoo-Jeong M, Taylor J, Christensen C, **Galea JT**. Determining preferred attributes of a "virtual village" platform to halt isolation among people aging with HIV: a community-engaged project. Oral presentation accepted for the AIDS 2022 Conference, Montreal, Canada, July 29-August 2, 2022.

14. Cydrus K*, Gilyard S*, Sanabria G*, Sanders L, Emmanuel PJ, Tran JT*, DiGiovanni L, Kosyluk K, **Galea JT.** The Process of Designing a Chatbot to Link Youth to Mental Health Resources. Poster accepted for the #OneUSF Undergraduate Research Conference, April 7, 2022.

15. Polonijo AN, Dubé K, **Galea JT**, Greene KY*, Taylor J, Christensen C, Brown B. Attitudes toward Payment for Research Participation: Results from a US Survey of People Living with HIV. Paper accepted for the Society for the Study of Social Problems 2022 Annual Meeting, August 5-7, 2022.

16. Greene K*, Brown B, Polonijo AN, Taylor J, Dubé K, **Galea JT**, Christensen C. The role of payment on people's decision to participate in HIV research: results from a national survey of people living with HIV. Poster presentation accepted for the CHIPTS 2022 HIV Next Generation Conference, January 28, 2022.

17. Green K*, Yoo-Jeong M, Ruiz EL*, Nguyen AL, Polonijo AN, Christensen C, Taylor J, **Galea JT,** Brown B. Developing an online platform to improve social connections for older adults aging with HIV: Lessons learned from multi-site discussion groups. Oral presentation accepted for the CHIPTS 2022 HIV Next Generation Conference, January 28, 2022.

18. Greene K*, Nguyen AL, Polonijo AN, Yoo-Jeong M, Ruiz EL*, Christensen C, Taylor J, **Galea JT**, Brown B. Co-designing a digital intervention to alleviate social isolation of people aging with HIV during the COVID-19 pandemic and beyond. Poster presentation accepted at the International Workshop on HIV & Aging, 2021, Virtual Workshop, September 23-24, 2021.

19. Sweetland A, Nava-Ruelas R, Sreenivisa P, Basham A. Fijiwara P and **Galea JT** (Moderators). TB and Mental Health: Integrating Mental Health into TB Services for Person-Centered Care. Symposium proposal accepted to the 52nd Union World Conference on Lung Health, 19-22 October 2021, Virtual Event.

20. Chu AL*, Huang CC, Lecca LW, Yataco RM, Calderon RI, Jimenez J, Zhang Z, Sweetland AC, Murray MB, **Galea JT**. Association between latent tuberculosis infection and depressive symptoms in household contacts of tuberculosis patients: a prospective cohort study. Abstract accepted at the 52nd Union World Conference on Lung Health, 19-22 October 2021, Virtual Event.

21. Kosyluk K, Baeder TC*, Tran J, Egan MM, **Galea JT.** Using a Chatbot to Address Psychological Distress Among First Responders. Poster presentation accepted for the American Congress of Rehabilitation Medicine (ACRM) 2021 Virtual Annual Conference, 26-29 September 2021. Archives of Physical Medicine and Rehabilitation 102(10):e82. Available at: https://www.archives-pmr.org/article/S0003-9993(21)01241-7/fulltext .

22. Kosyluk K, **Galea JT,** Baeder T*. Using a Chatbot to Address Psychological Distress Among First Responders. Oral presentation accepted for the NAMICon 2021 [delivered online due to COVID 19] 27-28 July, 2021.

23. Gilyard S*, Sanders L, Emmanuel PJ, Flynn G*, Kosyluk K, **Galea JT**. Feasibility and Acceptability of a Chatbot Health Navigator for Youth at a Risk of STI. Abstract accepted at the Florida Community, Provider, and Researcher (CPR) Conference, [delivered online due to COVID-19] 29-30 April 2021. Available at: https://docs.zohopublic.com/file/nxblb17eec4c4752746d7ae3778c179ee16bb

24. Green K*, DiEva D*, Nguyen AL, Yoo-Jeong M, Christensen C, Polonijo AN, Taylor J, Brown B, **Galea JT.** A Solution to Halt Further Isolation of People Aging with HIV During the COVID-19 Pandemic. Abstract accepted at the Florida Community, Provider, and Researcher (CPR) Conference, [delivered online due to COVID-19] 29-30 April 2021.

25. Gilyard S*, Simmons C, Thompson M, Gonzalez E, Guerra L, Pereira Martinez V, Slack G, Fuchs D, Mcperebo E, Doering T, Carlson C, Harrison H*, **Galea JT**. BRIDGE: COVID-19 and depression among patients receiving care at a free clinic in Tampa, FL. Abstract accepted at the Student-Run Free Clinic Faculty Association annual conference, [delivered online due to COVID-19]11-12 March 2021.

26. Yuen C, Millones AK, **Galea JT**, Puma D, Jimenez J, Lecca L, Becerra MC, Keshavjee S. Abstract accepted at the 51st Union World Conference on Lung Health, Seville [delivered online due to COVID-19], 21-24 October 2020.

27. Brooks M, Jenkins H, Puma D, Millones AK, **Galea J**, Jimenez J, Tzelios C, Becerra M, Lecca L, Keshavjee S, Yuen C. Geospatial determinants of TB active case finding among men and working-age adults in Lima, Peru. Abstract accepted at the 51st Union World Conference on Lung Health, Seville [delivered online due to COVID-19], 21-24 October 2020.

28. Puma D, Brooks M, Millones AK, Yuen C, Jimenez J, Calderon R, **Galea J**, Lecca L, Becerra M, Keshavjee S. Sensitivity of diagnostic tests in persons with abnormal chest radiographs. Abstract accepted at the 51st Union World Conference on Lung Health, Seville [delivered online due to COVID-19], 21-24 October 2020.

29. Puma DV, Millones AK, Jiménez J, Brooks MB, **Galea JT,** Lecca L, Becerra MC, Keshavjee SA, Yuen CM. Tuberculosis active case finding in high-burden areas: experience with mobile X-ray vans and Xpert MTB/RIF in Lima, Peru. Oral presentation accepted at the 50th Union World Conference on Lung Health, Hyderabad, India, 30 October - 2 November 2019.

30. **Galea JT**, Sanghyuk S. Putting evidence into action: Integrating mental health treatment to end the TB emergency. Symposium accepted at the 50th Union World Conference on Lung Health, Hyderabad, India, 30 October-2 November 2019

31. Puma D, Valdivia H, Carrillo V, Jimenez J, Yuen CM, Brooks MB, Lecca L, Becerra MC, Keshavjee SA, **Galea JT**. Community engagement to motivate participation in a mobile TB screening program in Lima, Peru: a theory-driven approach. Oral presentation accepted at the 50th Union World Conference on Lung Health, Hyderabad, India, 30 October - 2 November 2019.

32. Brown B, Marg L, Zhang Z, Kuzmanović D, Dubé K, **Galea J**. Factors Associated with Payments to Research Participants: A Review of Sociobehavioral Studies at a Large Southern California Research University. PRIMR 2019 Advancing Ethical Research Conference, Boston, 17-20 November 2019.

Simulation Capacity Building for Anesthesia Emergencies in Rural India—a One-Year Qualitative Analysis. Abstract accepted at the Bethune Roundtable in Global Surgery meeting, Edmonton, Canada, 6-9 June 2019.

34. **Galea JT**, Sánchez H, León S, Brown B. High levels of depression among Peruvian men who have sex with men: implications for HIV prevention and treatment care. Oral presentation accepted at the 10th Annual IAS Conference on HIV Science, Mexico City, Mexico, 21-24 July

2019. Journal of the International AIDS Society vol. 22 Suppl 5, Suppl 5 (2019): e25327. doi:10.1002/jia2.25327, Abstract MOAC0104.

35. Coit J*, **Galea JT**, Wong M, Mendoza M, Franke M. Title: Revealing the emotional burden carried by the unsung heroines in the fight against pediatric tuberculosis in Lima, Peru. Oral abstract accepted at the Women in Global Health Research Initiative's Scientific Conference, New York, USA, 25 April 2019.

36. Huang CC, Becerra MC, Lecca L, Calderon R, Contreras C*, Yataco R, **Galea JT**, Zhang Z, Murray M. Isoniazid preventive therapy protects against tuberculosis among household contacts of INH-resistant patients. Abstract accepted at The Union – North America Region End TB Conference, Vancouver, Canada, 21-23 February 2019.

37. Li R, Lecca L, Contreras C*, Calderon, **Galea JT**, Becerra M, Murray MB. Empowering patients and providers: prediction tools to improve TB contact investigation and preventive treatment. Abstract accepted at the 49th Union World Conference on Lung Health, The Hague, The Netherlands, 24-27 October 2018.

38. Coit J*, **Galea JT**, Wong M*, Mendoza M, Franke M. Understanding TB treatment initiation delays among children in Lima, Peru: A qualitative study. Oral abstract accepted at the 49th Union World Conference on Lung Health, The Hague, The Netherlands, 24-27 October 2018.

39. Dixit A, Freschi L, Calderon R, Ioerger T, Kolokotronis S, Methema B, **Galea JT**, Contreras C, Yataco R, Zhang Z, Lecca L, Farhat MR. Genomic Epidemiology of Tuberculosis in Lima, Peru. Abstract accepted at the ASM Microbe 2018 conference, Atlanta, GA, 7-11 June 2018.

40. Coleman S, Rose A, Mukasakindi H, Rodríguez F, Eustache E, Contreras C*, **Galea JT**, Chalamanda B, Nyachienga B, Ndayizigiye M, Selig S, Smith S, Raviola G. Partners In Health Cross-Site Mental Health Program: Strategic Planning Working Group to Strengthen Cross-Site Mental Health Collaborations. Abstract accepted at the 9th Annual Consortium of Universities for Global Health Conference, Washington D.C., 16-18 March 2018.

41. Prom MC, Eappen B, Aguilar M, Ramos K, Contreras C*, Raviola G, **Galea JT**. Training community health workers in the application of the WHO Thinking Healthy Program in the psychological management of perinatal depression in urban Peru. Abstract accepted at the 9th Annual Consortium of Universities for Global Health Conference, Washington D.C., 16-18 March 2018.

42. Coit J*, Mendoza M, Pinedo C, Mirin H, **Galea JT**, Leon S, Lecca L, Franke MF. Quantifying exposure to tuberculosis in child contacts; a validation study. Abstract accepted at the 48th Union World Conference on Lung Health, Guadalajara, Mexico, 11-14 October 2017.

43. Cook R, Pickett J, **Galea J**, Gorbach P. "PrEP in the Wild": What is motivating "informal" PrEP use? Abstract accepted at the United States Conference on AIDS (USCA), Washington D.C., 7-10 September 2017.

44. **Galea JT**, Cook RR, Pickett J, Gorbach PM. PrEP In the Wild - Results From a Global Survey of Medical Providers' PrEP Practices in Settings where it is Approved and Where it is Not. Abstract accepted at the 9th IAS Conference on HIV Science (IAS 2017), Paris, France, 23-26 July 2017.

45. **Galea JT**, Cook RR, Pickett J, Gorbach PM. PrEP in the Wild - Preliminary Results from a Global Survey on "Informal" PrEP Use in Settings Where It Is Approved and Where It Is Not. Oral-poster presentation accepted at the The HIVR4P conference, Chicago, USA, 17-21 October 2016.

46. Velásquez GE, Calderon RI, Mitnick CD, Becerra MC, Zhang Z, Contreras C*, Yataco RM3, **Galea JT**, Lecca LW, Murray MB. Changing drug-resistance profiles during tuberculosis treatment: amplification, apparent "loss" of drug resistance, reinfection, and mixed infection. Abstract accepted at the 47th Union World Conference on Lung Health, Liverpool, UK, 26-29 October 2016.

47. **Galea JT**, Brown B, Leon S, Calvo G, Gonzales I, Valderrama DH, Zamora J, Sánchez J, Klausner J. HPV and other HIV risk factors among heterosexually-identified men who have sex with men (MSM) compared to homosexually-identified MSM in Lima, Peru. Oral presentation at the 30th International Papillomavirus Conference, Lisbon, Portugal, 17-21 September 2015.

48. Brown B, **Galea J**, Leon S, Calvo G, Sánchez J, Coates T, Klausner J. The relationship between HPV types and visible anogenital warts on incident HIV infection among MSM and transwomen in Lima, Peru. Poster presentation at the 30th International Papillomavirus Conference, Lisbon, Portugal, 17-21 September 2015.

49. Brown B, **Galea J**, Leon S, Calvo G, Sánchez J, Coates T, Klausner J. HPV and HIV outcomes among Peruvian transwomen: results from a cohort study. Poster presentation at the 30th International Papillomavirus Conference, Lisbon, Portugal, 17-21 September 2015.
