

FREE VIRTUAL WORKSHOP SERIES

Exploring Collaborative Opportunities Careers:
Bridging Innovation and Professional Growth
Wednesday, August 28, 2024 // 8:00–9:00 AM ET

Presented by:

Tonya P. McHugh

tpmchugh@usf.edu

Join us for an instructive discussion on exploring how careers within STEM can be enhanced through the evaluative STEM career model and guided by the Model for Collaborative Evaluations (MCE) to enhance organizational resilience. This workshop addresses STEM education and training, skill development, career progression, workforce preparation, and lifelong learning. This aligns with broader societal goals, as students can transform their lives and positively impact their communities.
