

NMR CEU/ROOM QUICK CHECKLIST

COMPARATIVE MEDICINE

- Check CEU Screen to ensure its operational (i.e., correct date is displayed)
- Check posted feeding schedule
 - Remove food from refrigerator
- Check humidifier(s) and change/add the water as needed (usually at least 2x per day)
 - Ensure bacteriostat is being placed
 - Clean humidifier(s) weekly
 - Add warm water cages to CEU as needed
- Check Cages for any newborn pups. Be very careful about minimizing any noise/movement of cages.
- No newborn (within 24hrs) pups
 - Check schedule to see which chamber/tunnel is to be changed or wiped down
 - Change as listed
 - Check posted feeding schedule
 - Remove old feed and place new feed in cage
 - Place weight on top of cage
- Change gloves between each colony
- Repeat until complete
- Record in the book and room sheet what is being completed
- Wash/Prepare food for the next day
